Family Note

Monster Squeeze is a game that reinforces number recognition and the concepts of greater and less. Directions are provided below, but let your child take the lead in teaching you the game.

Materials Two monsters and a 1-10 number line

Players 2

Object To guess the mystery number

Directions

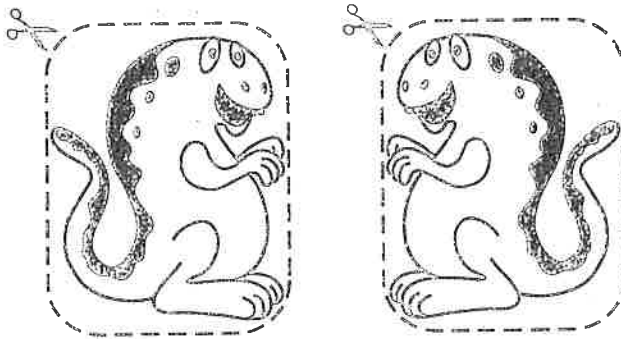

1. Player 1 places one monster at each end of the number line, facing the other. The same player chooses a mystery number between 1 and 10 and writes it on a piece of paper.
2. Player 2 guesses a number.
3. Player 1 says whether the number guessed is too low or too high and covers the number with a monster. (The left monster covers the number if the guess was too low. The right monster covers the number if the guess was too high.)

Example: If the mystery number is 6 and the guess is 3, the left monster moves up the number line to cover the 3. If the guess is 8, the right monster moves down the number line to cover the 8.

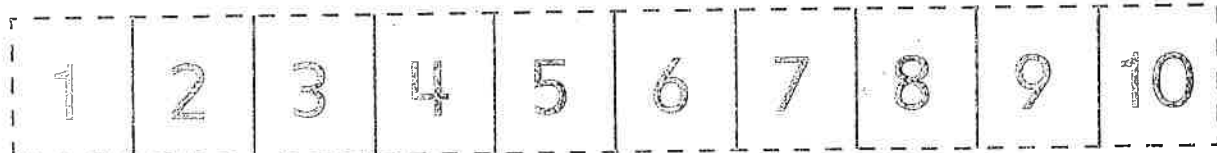

4. Players keep guessing and moving the monsters until the mystery number is guessed, or "squeezed," between the monsters!

Cut out the monsters and the number line.

Use them to teach someone to play *Monster Squeeze*.

Community Workers

Workers in the community do many jobs.

See if you can match the worker with the job.

I'm a firefighter. Can you guess my job?

I'm a police officer. Can you guess my job?

I'm a bus driver. Can you guess my job?

I'm a mail carrier. Can you guess my job?

I deliver letters and small packages to people.

I drive a bus and take people places.

I put out fires.

I make the community safe.
