Jobs Today and Long Ago

Some jobs are the same today as they were long ago. Some jobs are different.

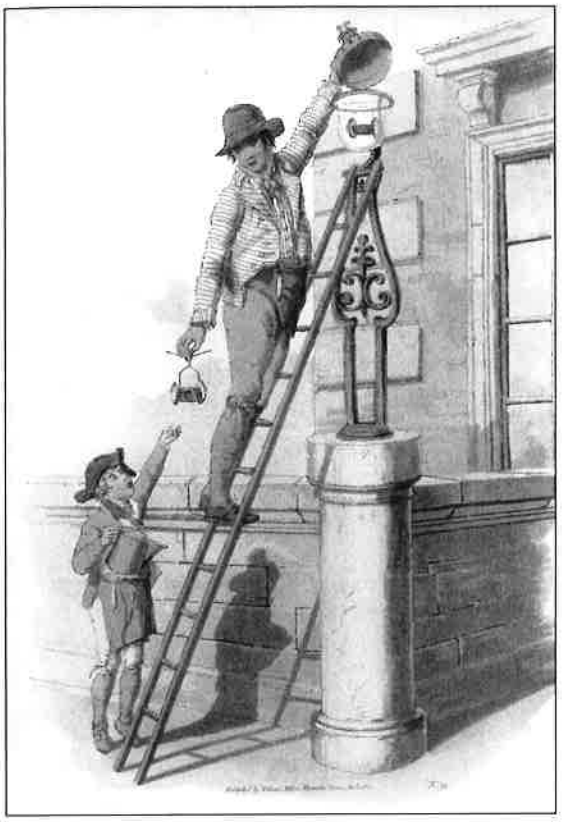
Long ago, cobblers made shoes by hand.

Today, workers use machines to make shoes. People buy the shoes at a shoe store.

A miller was someone who ground wheat into flour. Long ago, people brought wheat to the miller.

Today, workers use machines to grind wheat into flour. People buy flour at the store.

Some jobs are not needed anymore.



Long ago, lamplighters would light streetlights. Today, streetlights are electric, and do not need people to light them.

Long ago, people would tap on a window to wake up the person living there. Today, we have alarm clocks.

Long ago, log drivers helped move logs downriver. Today, we use trains and trucks.
